

Don't Compromise Your Security

Get an ABLOY® Lock on YOUR Investment!

Corporate Statement

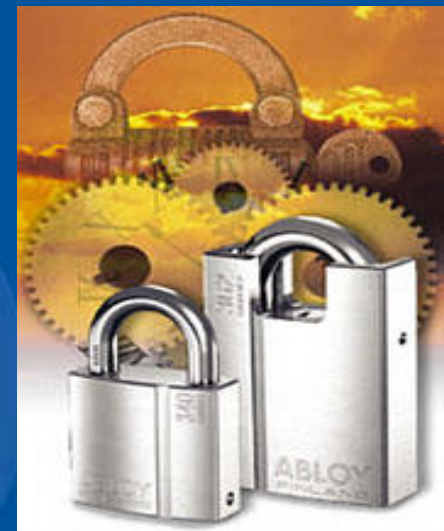

Abloy Oy is one of the leading manufacturers of locks, locking systems and architectural hardware and the world's leading developer of products in the field of electromechanical locking technology.

ABLOY® is an ASSA ABLOY Group brand. ASSA ABLOY is the world leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

Corporate Profile

Abloy Security has been satisfying security needs for customers in Transportation, Public Utilities, U. S. Government, Casino Gaming, Vending, Parking Meters, OEM, Locker and Payphone markets.

Abloy Security provides a full range of locking product solutions designed to satisfy customers' most demanding applications.

The ABLOY® Difference

- 
- ▶ **Maximum Security**
 - ▶ **Accountability**
 - ▶ **Performance**

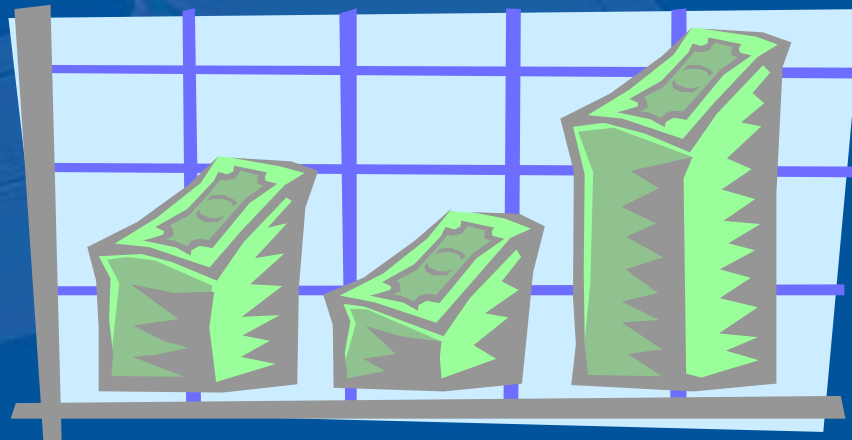

Maximum Security

- ▶ Maximum resistance to physical attack
- ▶ Virtually pickproof locks by design
- ▶ Drill resistant: hardened, free spinning protection plate prevents drilling through
- ▶ Key-retaining feature prevents leaving site before re-locking
- ▶ Re-keyable in the event of key loss or theft

Accountability

- ▶ Extremely affordable solutions
- ▶ Increased lock life cycle
- ▶ Minimized loss due to theft or maintenance
- ▶ Maximizes the amount of money you take to the bank

Key Control

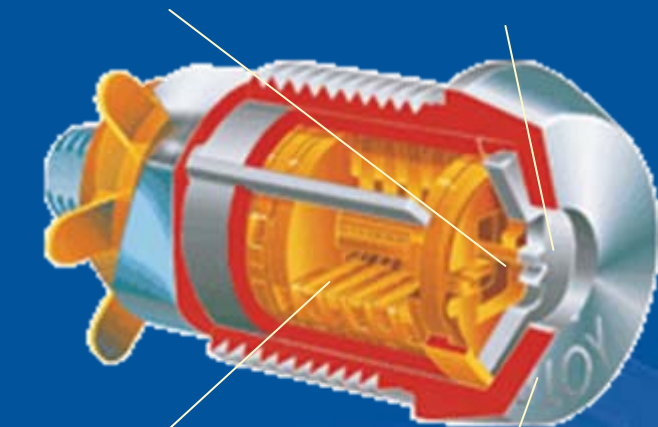

- ▶ **ABLOY® EXEC** keyway
- ▶ Over 360 million exclusive key codes
- ▶ System can be designed to operate with just one key
- ▶ Patent restricted key controls unauthorized duplication
- ▶ **ABLOY® EXEC** key extremely difficult to copy

ABLOY® EXEC Design: Rotating Disc Principle

SMOOTH & RELIABLE
OPERATION

PICK
RESISTANCE

DISC STEERING SYSTEM

SUPERIOR PHYSICAL
STRENGTH

- ▶ No springs to wear, weaken, rust or freeze
- ▶ Millions of key combinations
- ▶ Virtually pickproof
- ▶ Exclusive key design
- ▶ Key retaining while unlocked
- ▶ Re-keyable when keys are lost or stolen

Performance

- ▶ Unique materials and surface treatments guarantee corrosion resistance of both visible parts and internal parts
- ▶ Principle operating components are highly resistant to wear, dirt, moisture, corrosion and freezing
- ▶ Spring free construction prevents the locks from jamming
- ▶ Ease of use, with effortless key entry and rotation, minimizes wear

Maximum Security Vending Solutions

ABLOY® offers a wide variety of locking solutions to best fit your vending security needs.

- ▶ **ABLOY® T-Handle Series**
- ▶ **ABLOY® Padlock Series**
- ▶ ***SHUT-OUT*® Series**
- ▶ **ABLOY® Cam Lock Series**
- ▶ **ABLOY® *FLEXLOCK* Series**

ABLOY® T-Handle Series

- ▶ Maximum pull resistance – the precision steel latch (bolt) provides resistance to over 4,000 pounds of pull strength.
- ▶ Superior drill resistance – the extra-thick, case hardened steel face stands up to extensive drilling attack. The free spinning keyway acts as an additional deterrent to drilling.
- ▶ **ABLOY® EXEC** patented key control – ensures that keys will not be copied without authorization.
- ▶ Optional dead latch – provides extra protection against forced entry.

ABLOY® Padlock Series

- ▶ Strong resistance to physical attack – the hardened-boron steel shackle provides strong protection.
- ▶ Corrosion resistant – the chrome plated lock body provides superior performance as well as oversized drainage holes.
- ▶ Strong hold shackle – heel & toe locking stainless steel ball bearings dead-lock the shackle at both ends.
- ▶ Patented key control protection – ensures that keys will not be copied without authorization.

SHUT-OUT® Series

SHUT-OUT® Series Hasps

- ▶ Maximum security – designed to restrict prying and exterior access to bill acceptor
- ▶ Corrosion resistant – body made of cold rolled steel. Electro-plated black finish designed to visually blend with the vending machine
- ▶ Ease of use – designed to use existing holes in machine, quick installation
- ▶ The hasp is designed to protect the lock, yet is easily unlocked by authorized employees

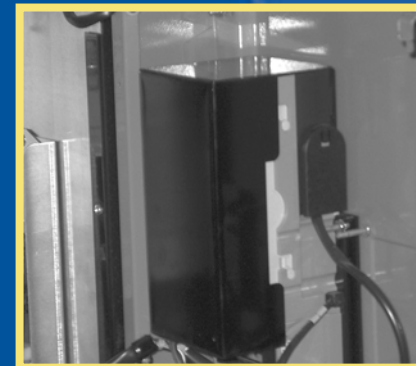

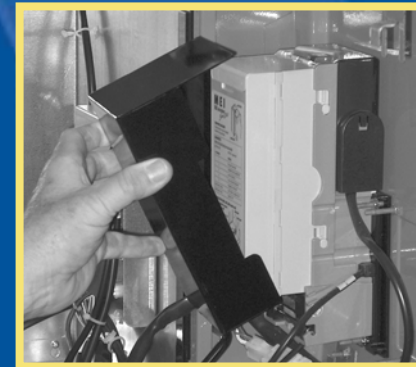

SHUT-OUT® Puck Locks

- ▶ Houses an ABLOY® EXEC T-handle cylinder with over 4,000 pounds of pull strength
- ▶ Solid, machined steel lock housing protects the concealed shackle and lock cylinder
- ▶ Extra thick, case hardened steel face and anti-drill disc protects the lock cylinder's internal components
- ▶ Designed to be used with the SHUT-OUT® Puck Hasp

SHUT-OUT® Shield

- ▶ Secures against unauthorized access to bills
- ▶ Protects from free access to the lid of stacker box
- ▶ Light weight and designed to fit the vast majority of bill stacker boxes
- ▶ Easy to install and simple to use – simply slides over existing stacker box
- ▶ No modifications are necessary
- ▶ Made of cold-rolled steel with electro-plated black finish to resist corrosion
- ▶ Chain accessory available to attach to infrastructure of machine door – ensuring the **SHUT-OUT®** Shield is returned to its secure position

SHUT-OUT® Safeguard

The product takes protection of cash assets a step further by protecting the merchandising plate above the face of the bill stacker and bill acceptor from being smashed. This product deters the smash and grab entry and further protects the validator from damage and costly repair or replacement.

- ▶ Easy and quick installation – no redesign required
- ▶ Protects two vulnerable points of entry with metal rather than plastic
- ▶ Prevents damage to validator, in turn saving costly repairs
- ▶ Includes a complete installation kit with all hardware

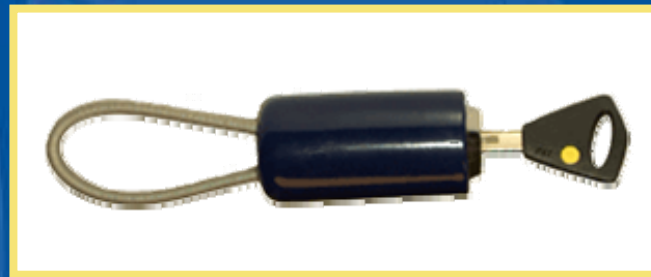

ABLOY® Cam Lock Series

- ▶ Environmentally resistant – spring-free construction eliminates spring breakage & internal corrosion due to foreign material.
- ▶ Superior drill resistance – the case hardened steel housing stands up to extensive drilling attack. The free spinning keyway acts as an additional deterrent to drilling.
- ▶ Virtually pick proof – false gates provide an additional safeguard against picking.
- ▶ Patented key control protection – ensures that keys will not be copied without authorization.

ABLOY® *FLEXLOCK* Series

- ▶ Ideal for route key control
- ▶ **ABLOY® EXEC** keyway
- ▶ Optimum Key Management – Once locked, keys cannot be removed from cable without authorized key to open lock
- ▶ Provides optimum protection when issuing keys to employees and contractors

The Logical Choice for your Vending Security

- ✓ Maximum Security Solutions
 - ✓ Maximum ROI
- ✓ Maximum System Flexibility
- ✓ Maximum Management Control
 - ✓ Maximum Service Levels
