ABLOY® Secures Revenue Protection for Parking Meters

IRVING, TX, May 27, 2008 - Abloy Security, Inc. will be presenting **ABLOY®** Maximum Security Parking Meter Solutions at the upcoming International Parking Conference and Expo (IPI). The IPI Expo is taking place June 1-3, 2008 at the Dallas Convention Center in Dallas, Texas. Abloy Security, Inc. will be exhibiting in Booth #436.

The complete line of **ABLOY®** Parking Meter Locks retrofit all major parking meters in use. In addition, various lock models can be keyed into the same high security system featuring patented key control for total integration. The **ABLOY®** Maximum Security Locking System enables high security, lock longevity and ease of use while significantly reducing administration and maintenance costs.

All **ABLOY®** locks feature patented key control with over 300 million different key codes available. All **ABLOY®** cylinder product models can be made to operate with just one key. The heavy-duty construction of **ABLOY®** locks provides maximum resistance against physical attack as well as corrosion resistance in all types of weather.

Abloy Security offers a variety of maximum security locking solutions to fit the requirements of the Parking Meter Industry. The **ABLOY®** PL Series padlocks provide an ideal locking solution for collection carts and boot enforcement. A Lifetime Functional Warranty backs these padlocks.

Increased lock life-cycle, minimized loss due to theft or maintenance, and maximum amount of money taken to the bank are just a few examples of how **ABLOY®** can help with return on investment. For more information on these locking solutions please visit our website at www.abloyusa.com/parking.htm.

Abloy Security, Inc. offers a complete range of maximum security locking solutions to fit the varied requirements of the Parking Industry. Additional solutions designed for this market include the **ABLOY®** PL Series Padlocks, **ABLOY®** Flexlock (keyring lock), **ABLOY®** SMARTDISC (electromechanical locks), **SHUT-OUT®** Puck Locks and Hasps.
